Exhibit (A):

Gabriel Wireless is a paging carrier and does not collect call record information for its paging customers. Gabriel Wireless authenticates each customer contact by a previously assigned account password, also we verify customer name, address, phone number and voice-mail password. We do not provide customer information online via the web, all customer interaction is performed via the phone or mail. In the case of a customer visiting one of our stores we will ask the customer to provide a photo I.D. which must match the name on the account. All account changes must be made with the same authentication procedures. All business customers are required to designate account representative as the primary contact and the same authentication procedures are followed as well.

Exhibit (B):

Gabriel Wireless, LLC understand its responsibility of reporting to appropriate law enforcement within seven (7) business days of any unauthorized access or hacks into carriers database, this includes notifying USSS and the FBI. Gabriel Wireless shall keep records of any attempts or unauthorized account access to a customers account for a period of two years.

Exhibit (C):

Gabriel Wireless, LLC has safeguards in place that are in compliance as stated in this filing, customers do not have on-line access to account information and takes all available precautions regarding network security.

Exhibit (D):

Gabriel Wireless, LLC does not market to it's customers via any third parties by way of joint venture or independent contractor. Our customers information remains unavailable and used only for purposes of billing, paging of data to customers paging receivers and customer interaction and service. If we are to

change this policy we would adopt “opt-in” consent for such marketing from its customer base.
